EXPANSION BOXES

Customise your setup

FULL RANGE

EXPAND YOUR COMPUTERS FUNCTIONALITY

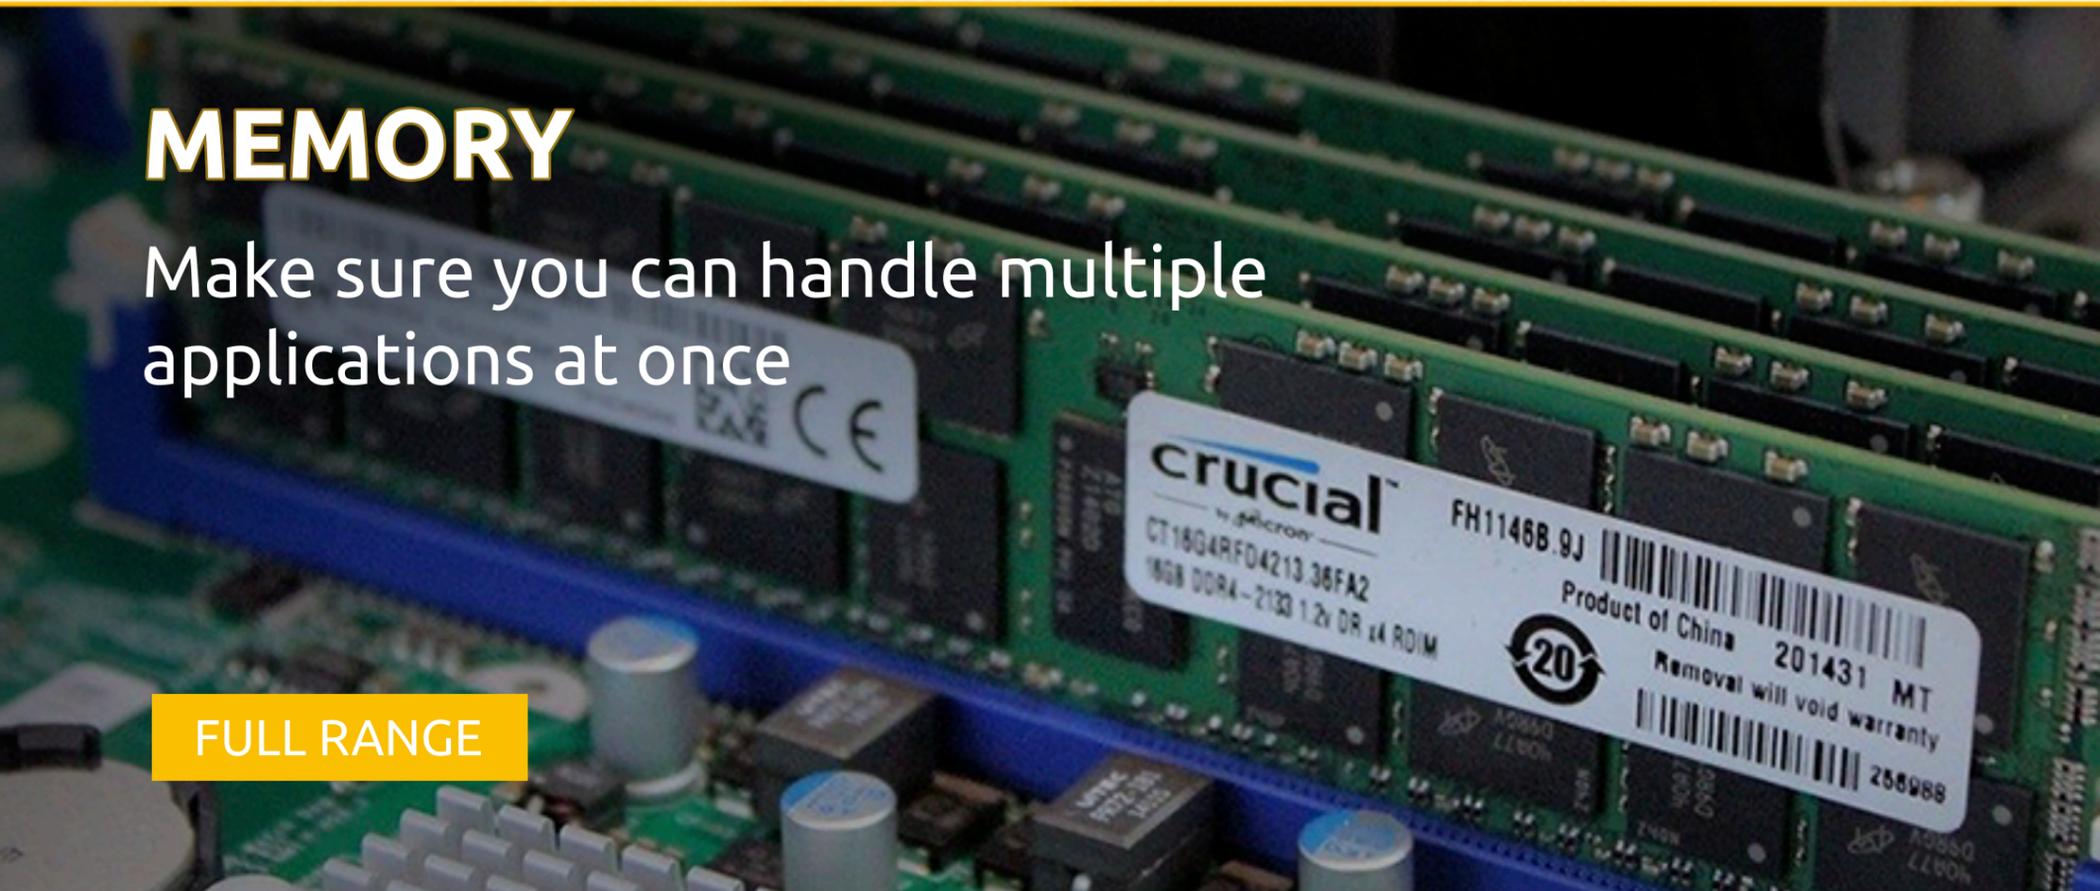

Modern laptops and workstations offer a number of different ways to connect to storage, networks and other peripherals. With a product portfolio encompassing Ethernet, Fibre Channel and Thunderbolt you can now expand your system and capabilities according to your needs and requirements.

MEMORY

Make sure you can handle multiple applications at once

FULL RANGE

IMPROVE THE PERFORMANCE OF YOUR SYSTEM

RAM (Random Access Memory) makes your system faster and, quite simply, more awesome. Open more applications, work faster and do more.

SSD STORAGE

Faster and more durable

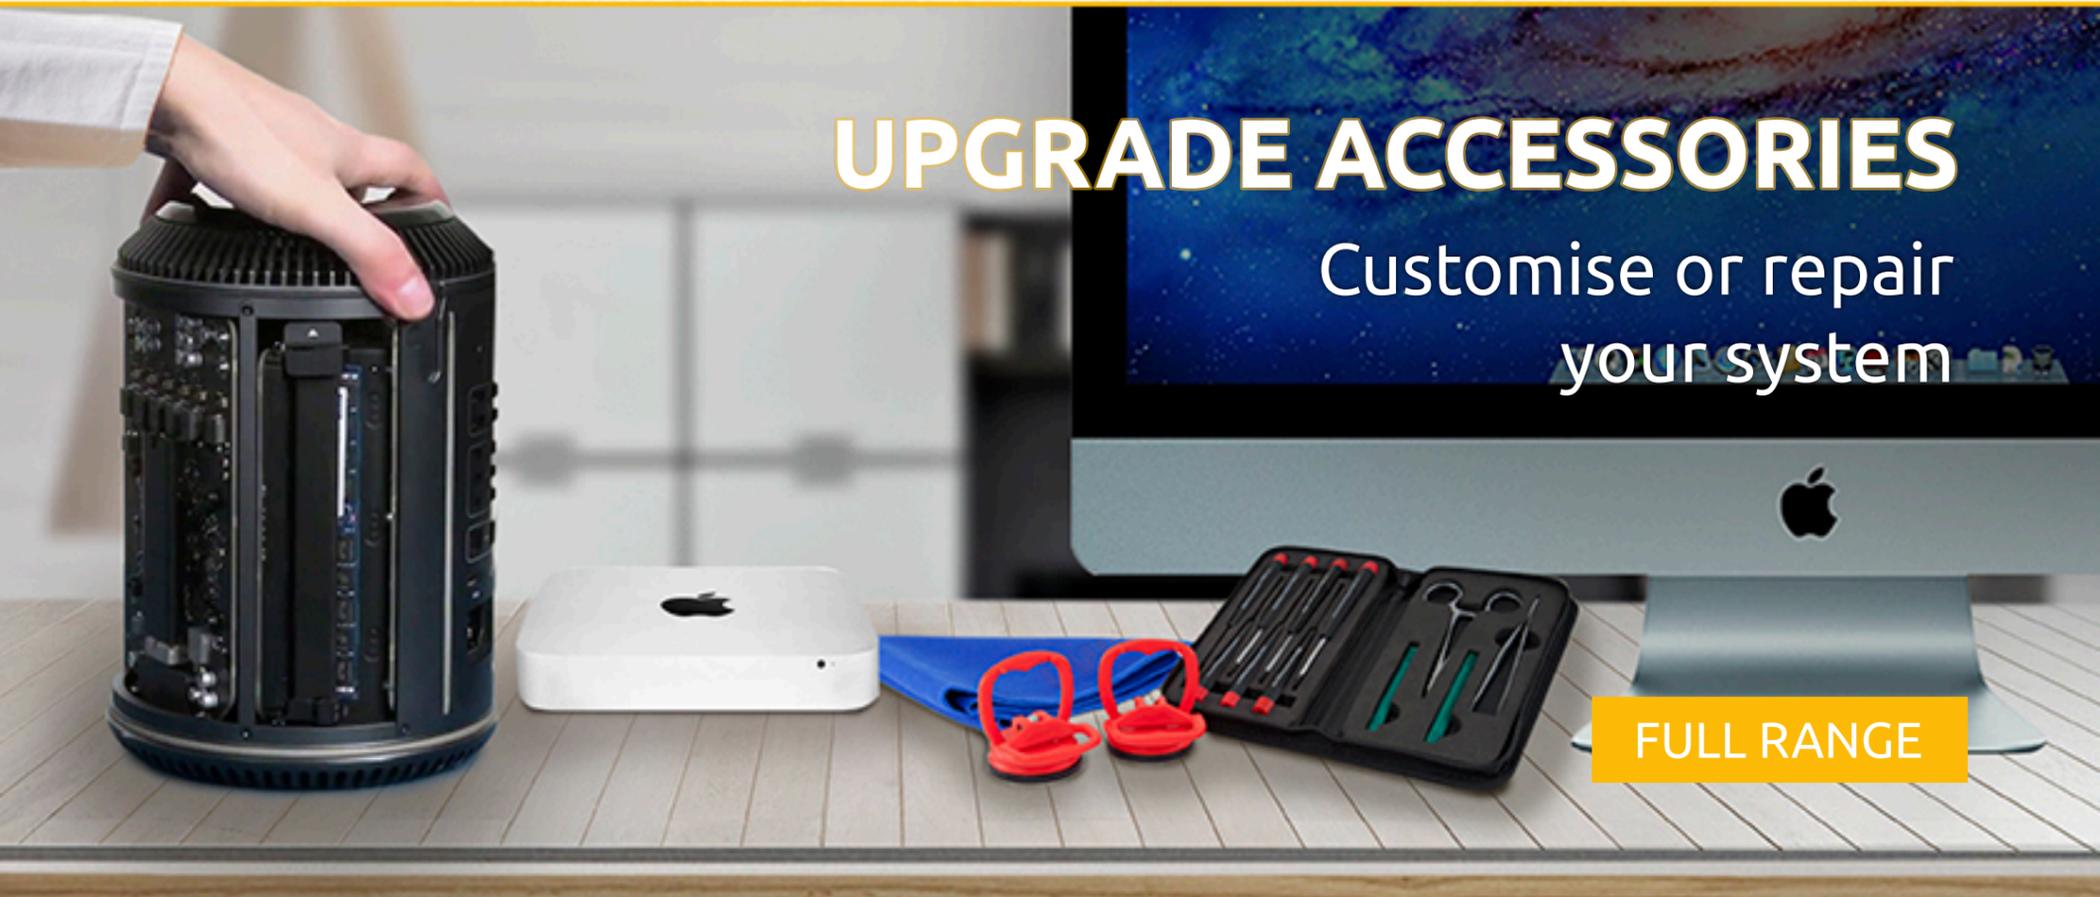

FULL RANGE

STORAGE WITH NO MOVING PARTS

SSDs have no moving parts and have huge benefits over traditional hard drives. Longer battery life, greater reliability, less heat and of course they're 400% faster. An SSD upgrade is undoubtedly the single best upgrade for your Mac.

UPGRADE ACCESSORIES

Customise or repair your system

FULL RANGE

UPGRADE YOUR SYSTEM WITH EASE

Customise or repair your MacBook Pro or iMac system with ease. Make sure you have the right tools for upgrading or repairing purposes.

EXPANSION CARDS

Custom Connectivity

THUNDERBOLT

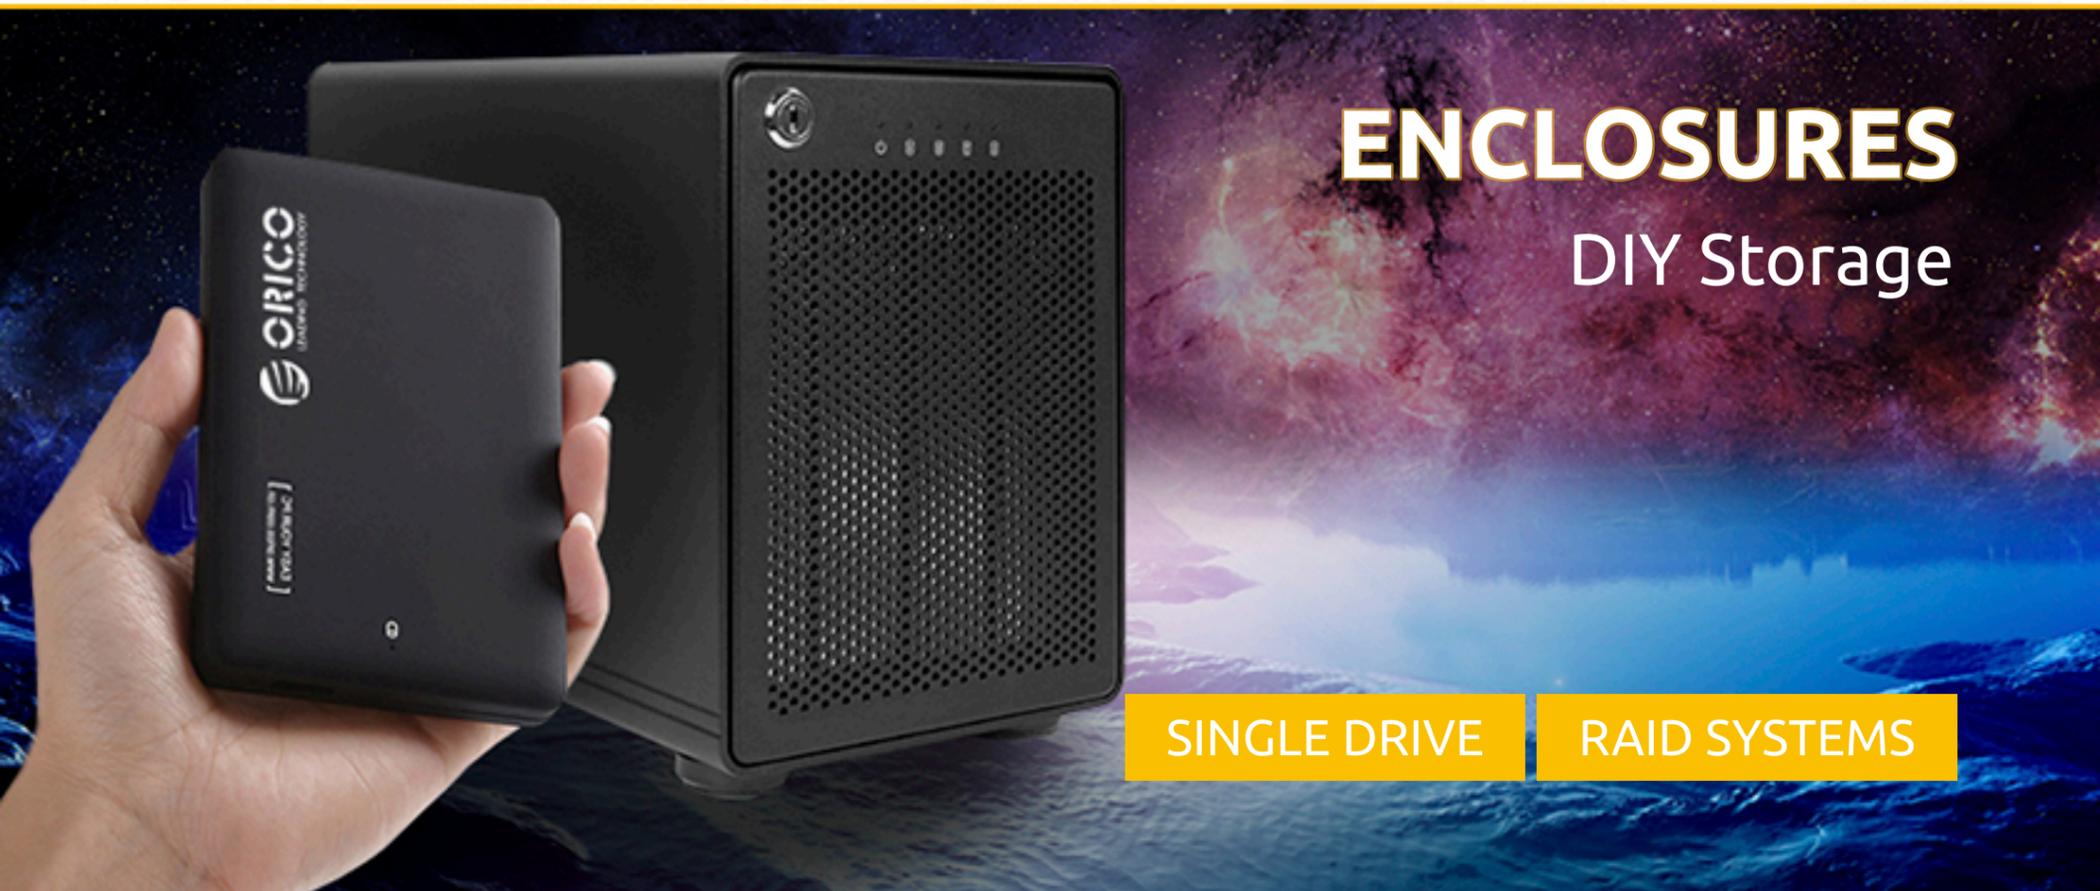

PCIe

ADD FUNCTIONALITY

Enhance the power of your Mac with expansion products that offer additional connectivity features. Fibre Channel, 10GBe, 40GBe, SAS, USB and Firewire are just some of the possibilities.

ENCLOSURES

DIY Storage

SINGLE DRIVE

RAID SYSTEMS

ULTIMATE PROTECTION FOR YOUR DRIVES

Hard Drive enclosures provide power to the drives therein and convert the data sent across their native data bus into a format usable by an external connection on the computer to which it is connected.

REPLACEMENT BATTERIES

Stay charged for longer

FULL RANGE

GET MORE YEARS OUT OF YOUR MAC

One of the main problems of a notebook is their battery life. They work great at first and the laptops can last for several hours, but then over the passing months and years, you're lucky if your laptop can last half an hour without your AC adapter being plugged in. Replace your battery and take back your freedom.
